

## PRGX Helps Retailers Optimize Recovery Audit Programs to Maximize Profit Returns and Investment

October 7, 2020

**Webinar offers strategies for retailers to expand audit scope, improve supplier management and accelerate audit timelines**

ATLANTA, Oct. 07, 2020 (GLOBE NEWSWIRE) -- PRGX Global, Inc. (Nasdaq: PRGX), a global leader in recovery audit and spend analytics services, announced its recent webinar, "Retail Best Practices for Optimizing your Recovery Audit Program," is now available [here](#).

Retailers are increasingly using rebates, promotions, discounts and loyalty programs to drive revenue and customer engagement. But it remains a challenge for retailers to track and account for each of these programs within their source-to-pay cycle. While overall sales may increase, valuable profit is left on the table unaccounted for.

PRGX's "Retail Best Practices for Optimizing your Recovery Audit Program" webinar examines four key areas of a recovery audit and how finance professionals can optimize program performance, specifically:

- **Audit Guidelines and Framework:** New standards for audit program procedures that maximize efficiency and returns;
- **The Audit Timeline:** Strategies to accelerate retailers' audit timeline and turnover schedules;
- **Supplier Management:** How retailers can remove vendor friction and create collaborative, positive vendor relationships; and
- **Audit Expansion:** Emerging audit concepts and processes to expand audit scope.

"Retailer merchandise recovery audits are a powerful tool for retailers to recapture lost profit and optimize source-to-pay performance," said Alliston Duncan, Senior Audit Director for PRGX. "Our webinar helps retailers ensure they are maximizing the resources and time invested into their recovery audit program, and in turn, the dollars brought back to their bottom lines."

The webinar, which was hosted on Sept. 24, 2020, is available here: <https://www.prgx.com/resources/retail-best-practices-for-optimizing-your-recovery-audit-program/>.
