

PRGX Addresses Why Retailers Need a Mobile Phone Activation Audit

October 16, 2020

Activation audits can deliver short-term cash returns and help identify process improvements for future contract negotiations with mobile carriers

ATLANTA, Oct. 16, 2020 (GLOBE NEWSWIRE) -- PRGX Global, Inc. (Nasdaq: PRGX), a global leader in Recovery Audit and Spend Analytics services, announced its recent webinar, "Why Retailers Need a Mobile Phone Activation Audit," is now available [here](#).

The introduction of 5G, satellite internet and other new mobile technologies will spark increased demand for the sale and activation of mobile phones through retailer networks. However, due to the complexity of these transactions and manual processes involved, many large stores often miss out on key commissions and profit opportunities after the transaction.

In "Why Retailers Need a Mobile Phone Activation Audit," Jim Albrecht, VP of Audit Operations, and Glen Hall, Audit Manager, address trends surrounding mobile phone usage and adoption, how activation audits deliver short-term cash returns and what process improvements retailers can make to enhance contract negotiations. The webinar also examines new market opportunities for retailers and how to take advantage of them.

"Activation audits ensure retailers are maximizing the value of their mobile phone sales and creating mutually beneficial contract terms with mobile providers," said Albrecht. "As consumers increasingly turn to retailers for mobile phone purchases, it is critical that retailers ensure they are making the most of their partnerships and exploring new opportunities with innovative audit firms."
